

Form A: Manufactured Stone and Brick Used in Exterior Wall Cladding Systems

Initial Field Review Professional Signature _____ Date _____

Final Field Review Professional Signature _____ Date _____

RE: Design and Field Review of Construction for the following project:

Project Name: _____

Project Address: _____

Legal Description: _____

Permit Number: _____ File Number: _____

I hereby give assurance that the design of the manufactured stone/brick cladding system on the exterior wall described on plans, specifications and other supporting documents, prepared by this *registered professional* in support of the application for a building permit meets the intent of the Alberta Building Code 2014. **I have an understanding or have employed someone who has an understanding of moisture control methods.**

I also confirm that the *authority having jurisdiction* takes no responsibility for the use of this exterior wall cladding system in this project and that I have advised the owner of this fact. As the Registered professional, I shall submit the completed Form A to the Town of High River when all deficiencies have been addressed per code.

I also undertake to notify the *authority having jurisdiction* in writing prior to the Final Building Permit Inspection if the product or the installation of the product fails to meet the intention of the Alberta Building Code and associated legislation in effect at the time of the building permit, or if our contract for *field review* is terminated at any time during construction.

I hereby undertake to be responsible for at least two on site *field reviews* during construction but not limited to:

1. Cladding support, lath, flashing, movement control and thermal expansion
2. Moisture management including protection from precipitation and water ingress control
